DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 1-26 in the reply filed on Jan. 12, 2005 is acknowledged.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 14 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 14, it cannot be understood what "the diameter of each of first and second shoulders of the outer sheath" is referred to. Claim 1 does not define the sheath as having two shoulders.

In claim, line 2, "a gel-containing portion" should be --the gel-containing portion--.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3676

5. Claim 26 is rejected under 35 U.S.C. 103(a) as being unpatentable over McCall et al. (5,00,599) in view of Schwartz et al. (4,035,089).

'599 discloses the handle as claimed except for the handle being an umbrella handle. '089 teaches a handle of a writing implement that can be shaped into an umbrella handle or various tool handles to provide a more comfortable grip in almost infinite number of uses. It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the handle of '599 into an umbrella handle or other tool handles as taught by '089 in order to extend the utility of the handle to a number of other uses.

Allowable Subject Matter

6. Claims 1-13, 15-19 and 21-25 are allowed.

7. Claims 14 and 20, depending from allowed claim 1, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
